P2A: MA ACCELERATOR

Benefit Package Automation

A simple solution to managing complex Medicare benefits.

Configuring plans year-over-year with different combinations of benefits just got a whole lot simpler for Medicare Advantage. As the Medicare population grows and becomes more consumer-centric, benefits and products will become increasingly more complex.

Benefit Package Automation within P2A: MA Accelerator

+Speed +Time

+Accuracy +Market innovation

HighRoads P2A creates a single source of truth to store and manage benefit data and provides streamlined processes that make scalability and flexibility easy.

✓ Eliminate repetitive tasks
✓ Lower the risk of errors and missed deadlines
✓ Replace manual spreadsheets with automation
